Attach Rack Risers and Strap Tabs using M6x16 bolts and M6 flat washers. Note: Set riser height based on clearance needed for rear wheel and fender.

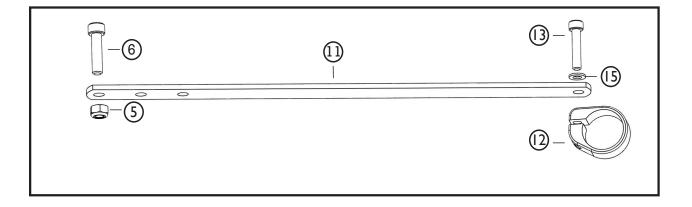

## GreenSpeed

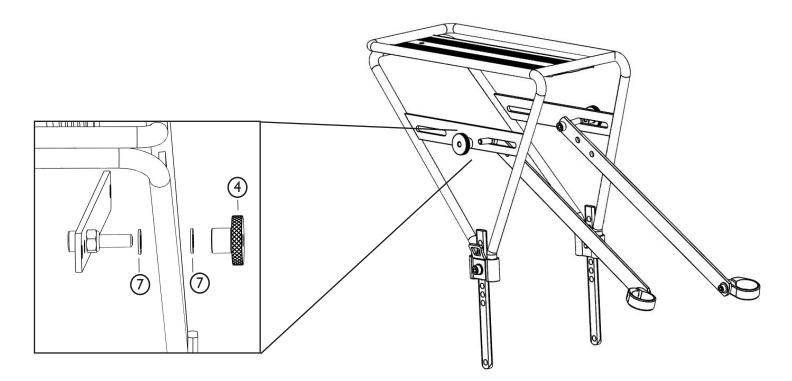

2

3

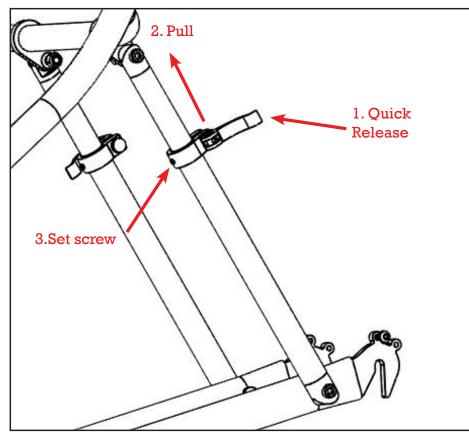

Assemble rack stays. Refer to parts list on page 1 for fastener specifications.

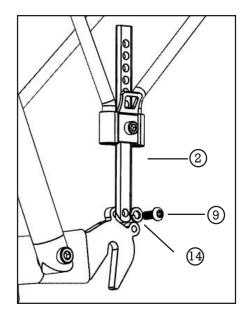

Attach rack stay assemblies to rear rack using the M6 thumb nuts. Leave thumb nuts loose for final adjustment. Note: Choose the appropriate rack stay mounting slot for best alignment with trike.

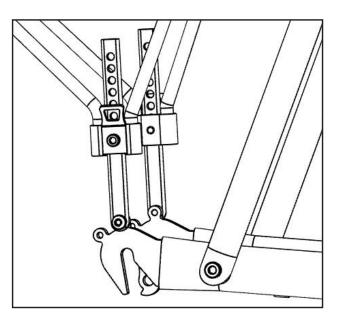

Loosen seat stay quick release levers and detach upper seat stays from lower seat stays. Loosen seat stay quick release set screws and remove clamps.

Attach rack riser to frame using M6x16 bolt and M6 split washer.

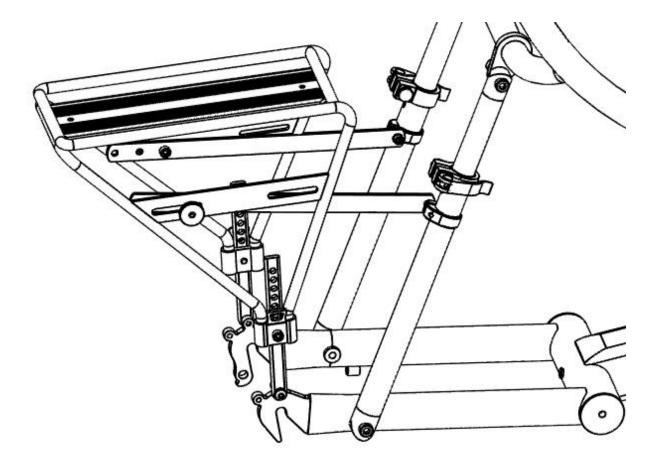

4

5

Slide rack clamp/stay assembly onto seat stays. Reinstall seat stay clamps and attach seat stays. Level the rack and tighten all fasteners.
