

GT

20, 20-RS & 26

Build Notes

Chain Tube and Idler

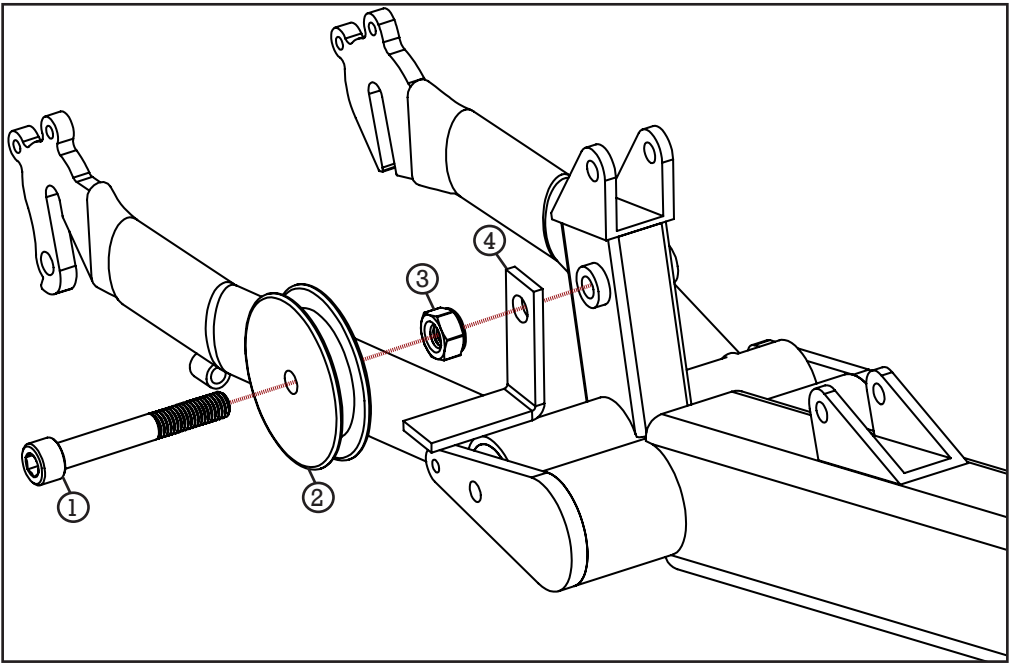

Ref.#	Item Name	Part #	Qty
1	M8x35mm SHCS Bolt	WH000008	1
2	15t Idler 8mm	GS000187	1
3	Chain Tube Bracket 8mm	GS000191	1
4	Idler Spacer 8mm	GS000194	1
5	GT20/RS/26 Chain Tube Kit	GS600142	1

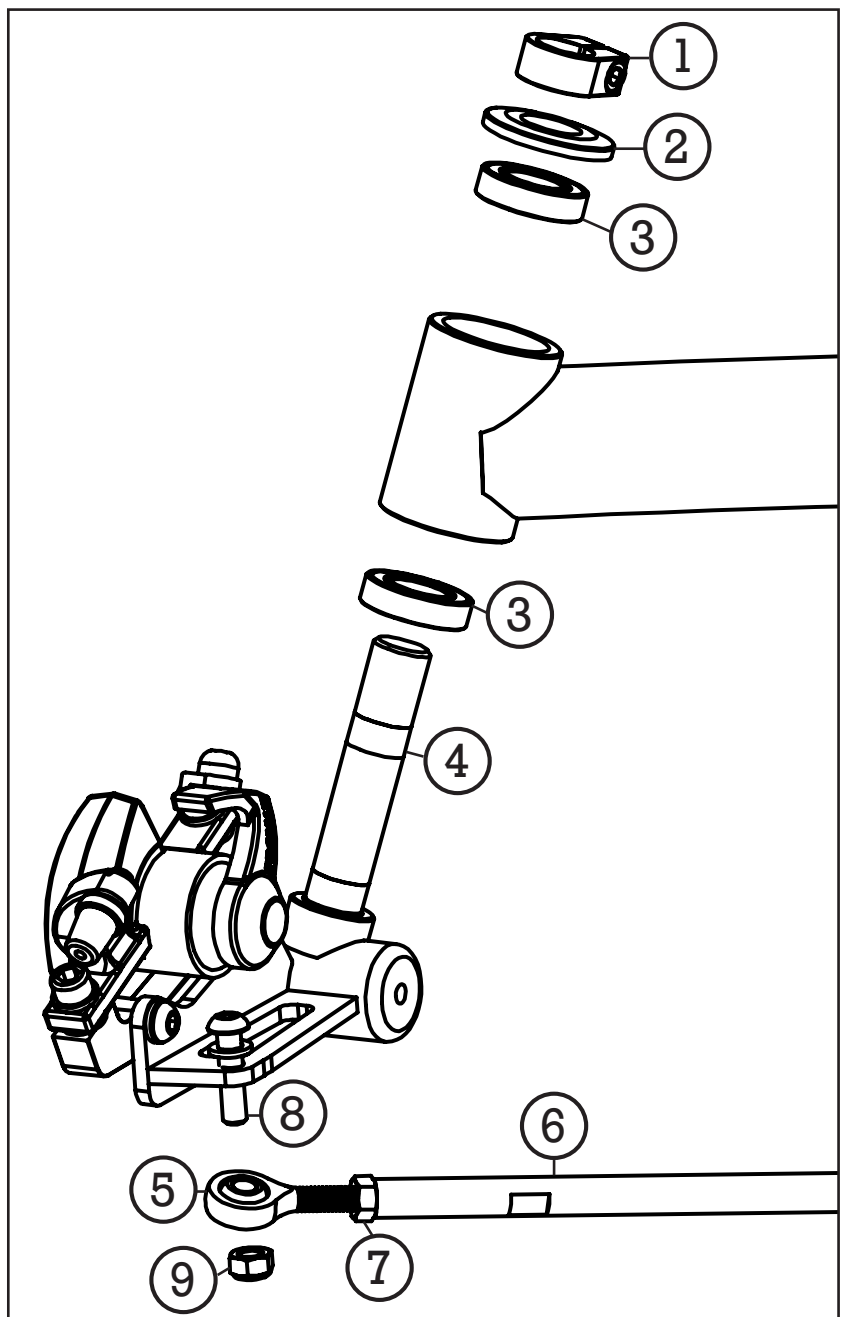

GT20-RS Rear Idler Assembly

Ref.#	Item Name	Part #	Qty
1	M10x75mm SHCS	WH000081	1
2	Standard Idler 10mm ID	GS000529	1
3	M10 Nyloc Nut	WH000182	1
4	10mm Idler "L" Bracket	WC000429	1

Steering

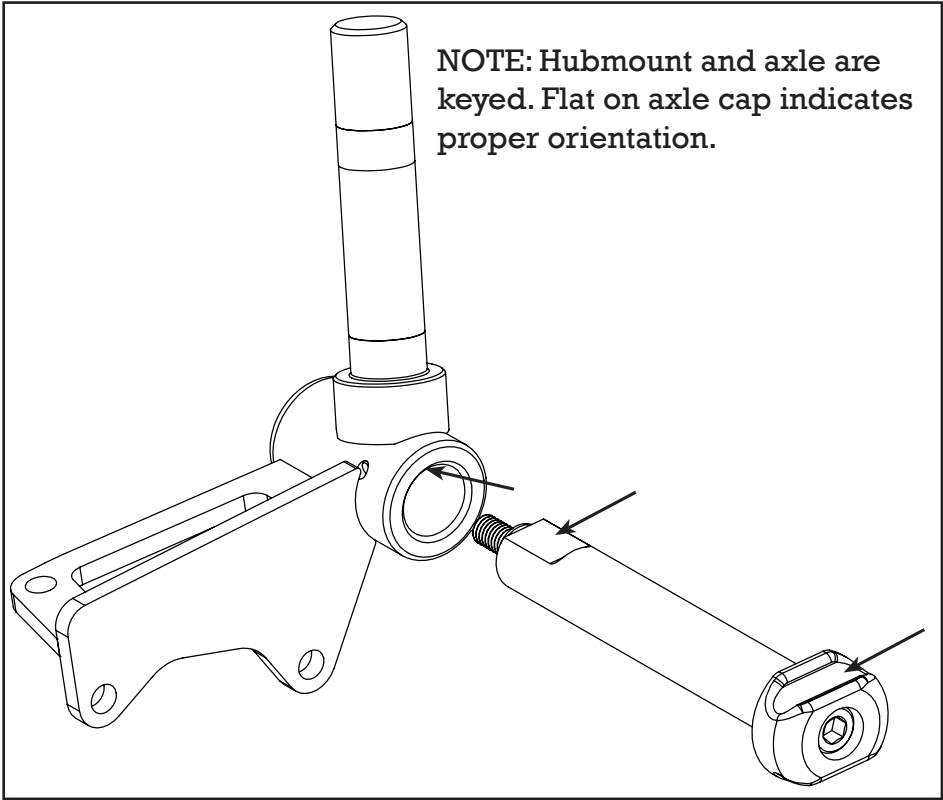

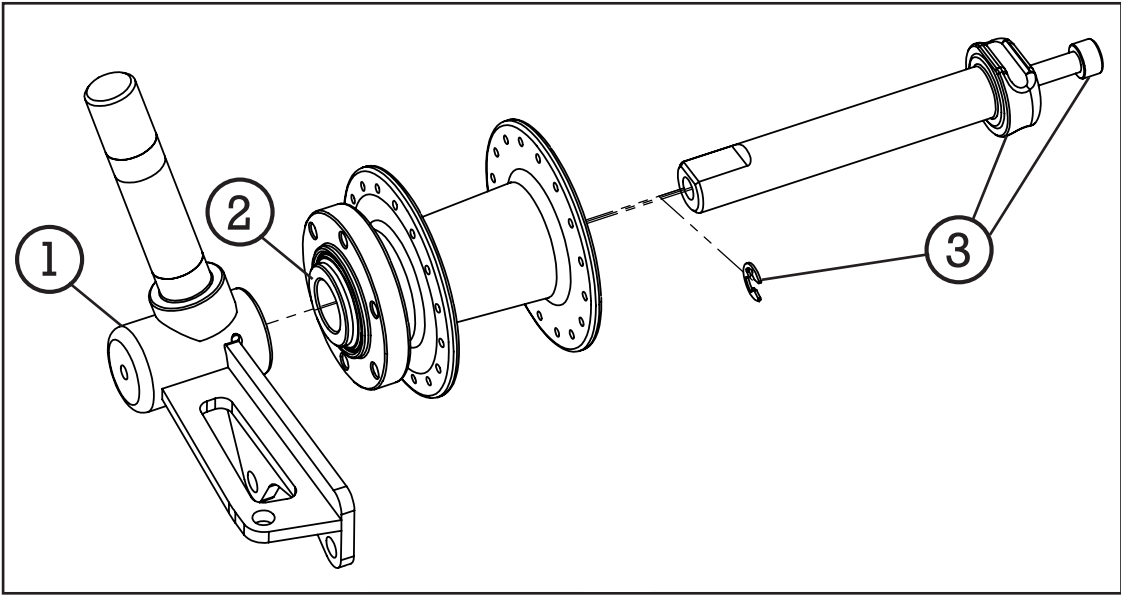

Ref.#	Item Name	Part #	Qty
1	GS Clamp, 15mm OD	GS000477	2
2	Headset Cover, GT	GS000607	2
3	Headset Bearing 15mm	GS000277	4
4	Disc Hubmount GT RH/LH	GS000502 / GS000501	1ea
5	Tie Rod End 6mm RH/LH	WH000154 / WH000153	2ea
6	Tie Rod 435mm	WC000247	2
7	M6 Hex Nut RH/LH	WH000156/ WH000157	2ea
8	M6x25 BHCS	WH000022	4
9	M6 Nyloc Nut	WH000007	4

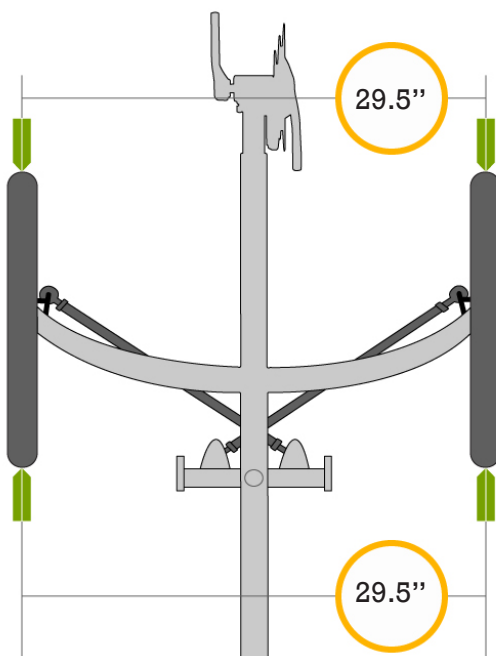

Hub & Axle

Ref.#	Item Name	Part #	Qty
1	Hubmount GT Disc RH/LH	GS000502 / GS000501	1 ea
2	Axle Spacer	GS000500	2
3	GT Axle Assembly - Disc Brake	GS000630	2

Alignment

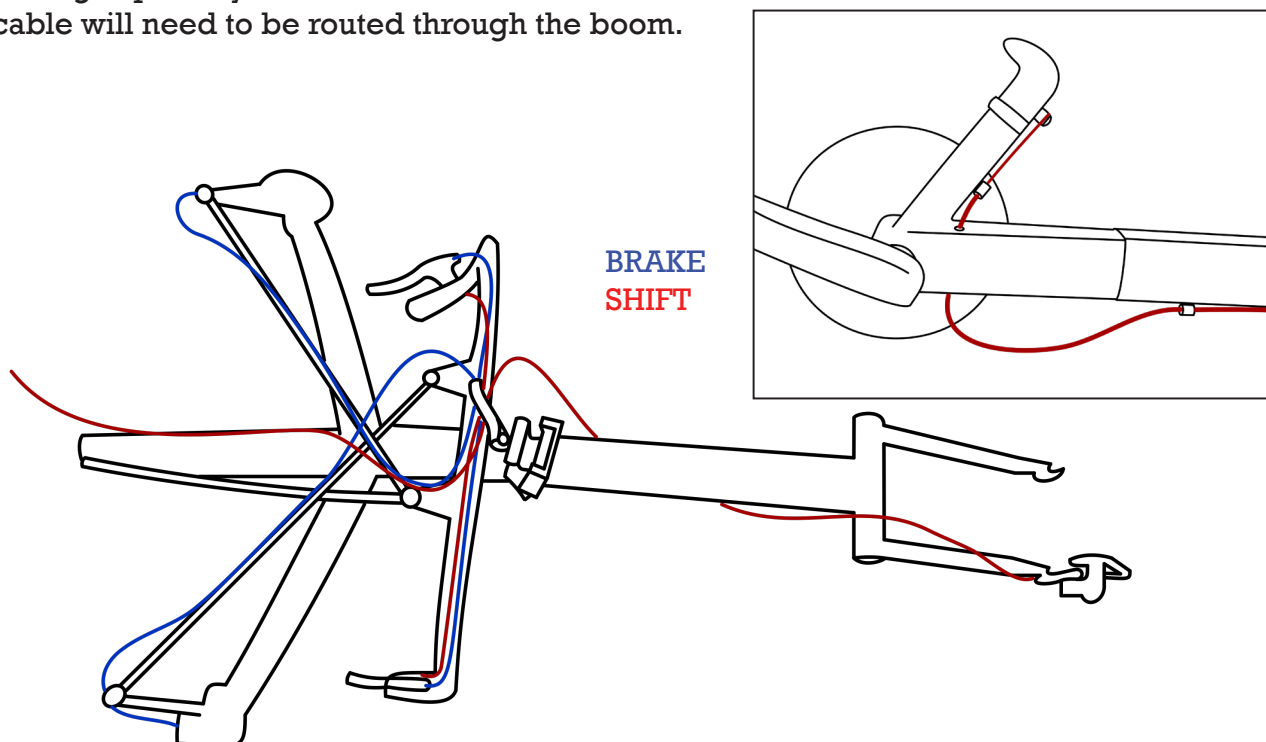

Due to the camber of the wheels, it is imperative to perform alignment at an equal height on both the front and rear side of the tires - the Wheel Alignment Tool (TT600933) helps simplify this process. The alignment measurement should be approximately 29.5" center tread to center tread, though slight variance is possible.

Cable Routing

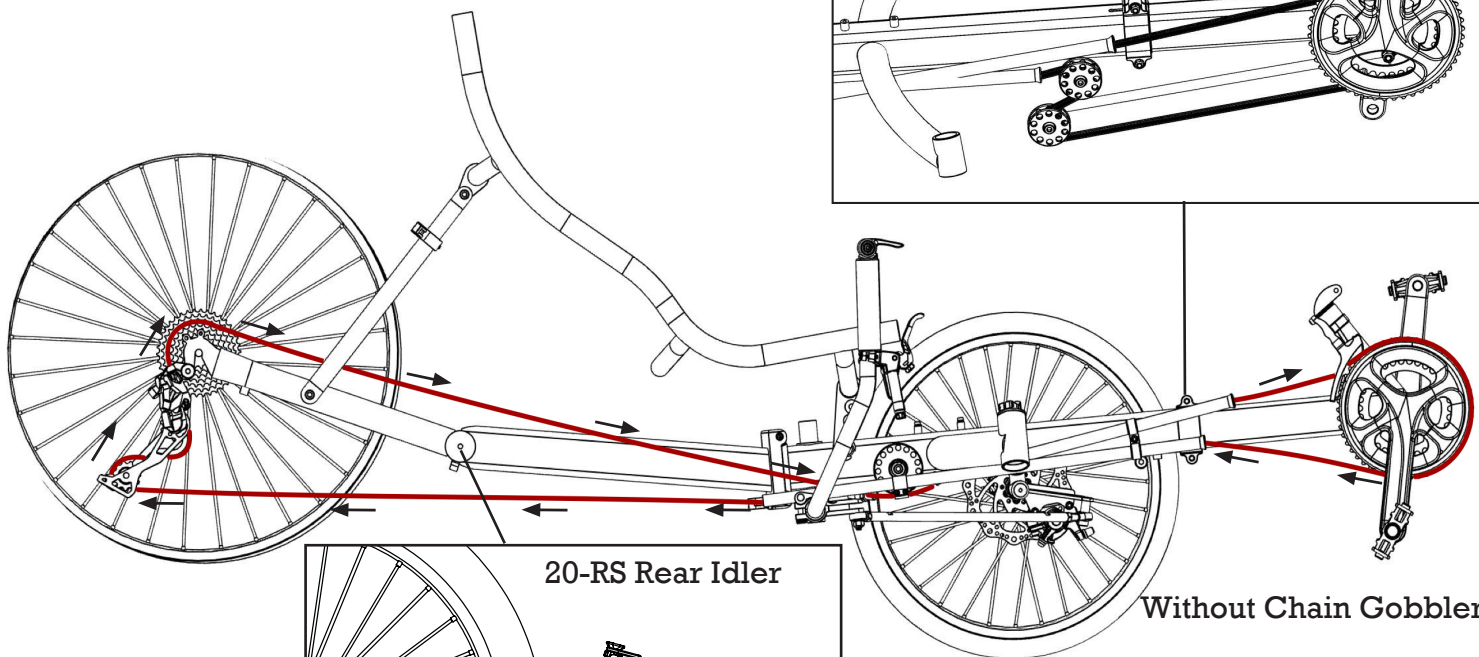

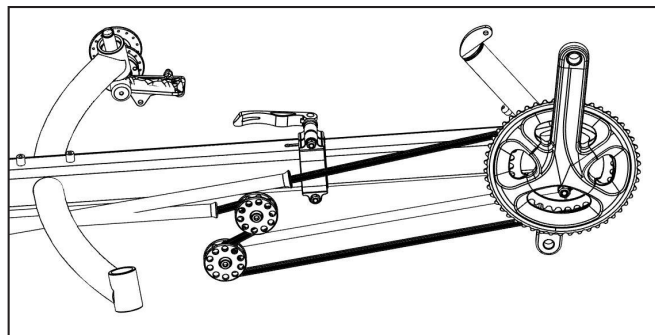

Cables will already be secured to the tie rods. Allow enough slack for full rotation of the handlebars, as well as folding capability of the frame.

Front shift cable will need to be routed through the boom.

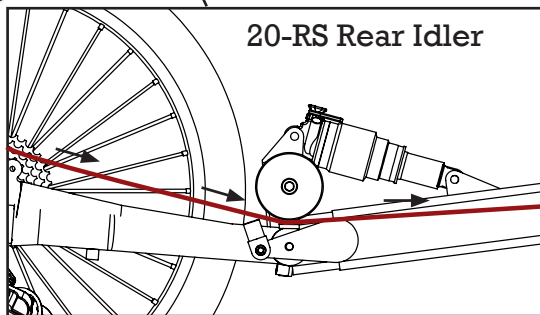

Chain Routing

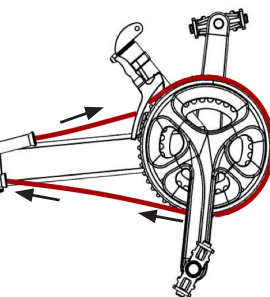

With Chain Gobbler (GS600112)

20-RS Rear Idler

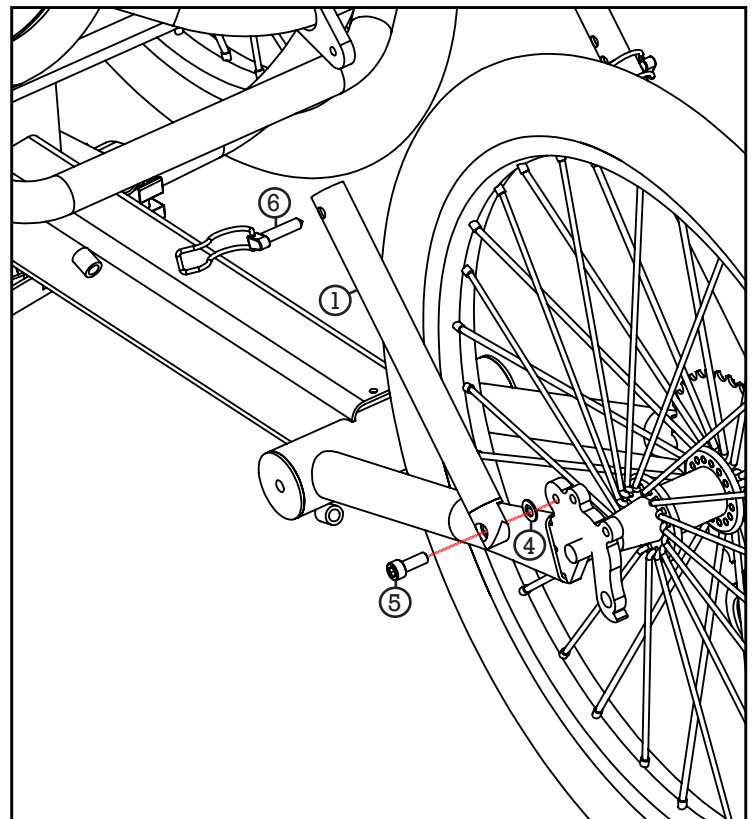

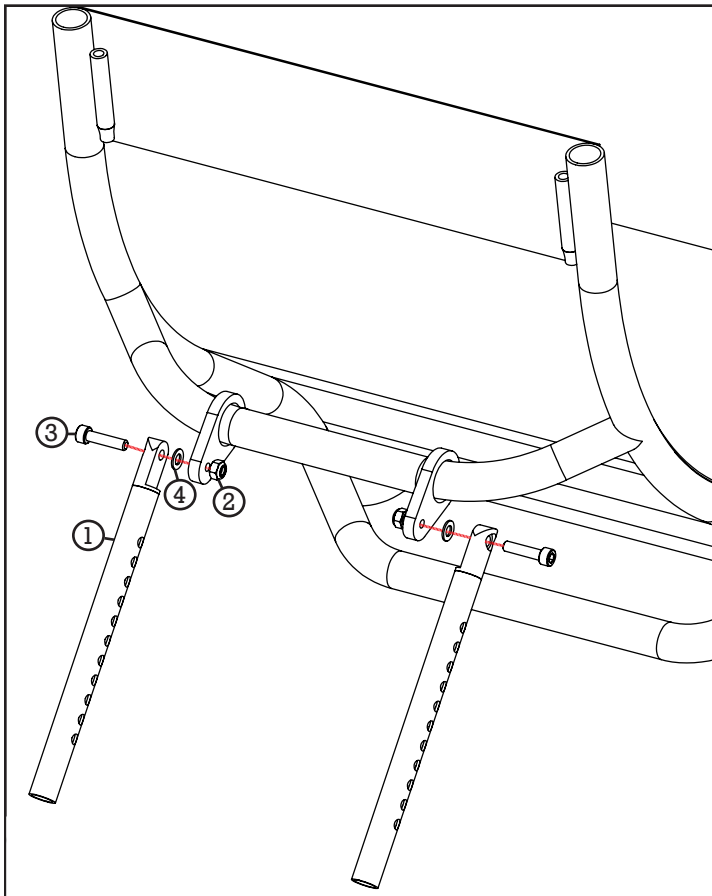

Without Chain Gobbler

Seat Assembly

Ref.#	Item Name	Part #	Qty
1	Seat Stay Upper & Lower	GS000452	1
2	M6 Nyloc Nut	WH000007	2
3	M6X25mm SHCS	WH000001	2
4	M6 Washer 12mm OD	WH000055	4
5	M6x16 SHCS	WH000056	2
6	Locking Seat Stay Pin (pair)	GS600133	1
